
Aluminium Bronze Casting

Aluminium Bronze Casting

Conex Bronze casts various Aluminium Bronze Alloys in its state of the art casting foundry in Jamnagar, India. We offer sand casting, centrifugal casting, gravity casting processes. Aluminium bronzes are most valued for their higher strength and corrosion resistance as compared to other bronze alloys. These alloys are strong and show lower corrosion in atmospheric conditions, low oxidation rates at high temperatures, and low reactivity with other elements.

Products cast from Aluminium Bronze:

- Grounding Clamps of Bronze
- Aluminium Bronze Pump parts impellers
- Aluminium bronze Bushes and threaded bushings
- Aluminium Bronze water meter parts union nuts housings etc for Water meter
- Grounding Couplers of Aluminium Bronze
- Impellers of Pumps
- Ship and marine parts and accessories
- Hot line clamps

- Transformer Tank Connectors
- Bronze Spade connectors terminals
- Bronze Vise Clamps
- Bronze gears and worms

Aluminium Bronze Alloys used in our casting foundry in india:

- CDA 954 Bronze Alloy C95400
- CDA 956 Aluminium Bronze Alloy C95600
- CDA 952 Aluminium Bronze Alloy C95200
- CDA 953 Aluminium Bronze Alloy C95300
- CDA 955 Aluminum Bronze Alloy C95500
- AB1 and AB2 , ALBC 1 , ALBC 2 , ALBC 3 , ALBC 4
