Bronze Fire Hose Couplings Hose Tail Couplings for Fire hose Bronze Gunmetal Couplings

Conex is one of the largest manufacturers and exporters from india of Bronze Couplings bronze Fire hose couplings cast from best Copper alloys. Our Gunmetal Hose tails hose couplings Bronze Hose tails Couplings for fires hsoes are exported around the globe. Our range of instantaneous Bronze Fire Hose Couplings are mainly used by the Fire fighting department for the delivery of water to fire fighting mechanism and they may also be used as industrial hose couplings. Instantaneous Fire Hose Couplings have a 2 ½" nominal bore head (either male or a female) and end in a variety of sizes of BSP parallel (G) female thread, BSP male thread and hose tails.

These Bronze or gunmetal fire hose couplings are cast at our casting foundry in jamnagar India from high quality Bronze Ingots or billets and are machined to perfection with required pressure testing done form time to time.

Material: Bronze LG2 Gunmetal (85-5-5-5 Copper, Zinc , lead, Tin alloy) ASTM B62, UNS Alloy C83600, Brass, or any Copper alloy

Threads: BSP

ADDEESS:

Conex Bronze Fittings
