

Bronze Skin Fittings Marine Hull Fittings

BRONZE SKIN FITTINGS BRONZE SKIN HULL FITTINGS

Bronze through hull fittings are essential components in the plumbing system of boats and ships. They are used to connect hoses and pipes to the hull of a vessel, allowing water and other liquids to flow in and out. The use of Bronze material for these fittings offers several advantages over other materials, making them a popular choice among boat builders and marine engineers.

PART No	Thread Size BSP	Inside Dia in MM
CONHULL1	1/2"	13mm
CONHULL2	3/4"	19mm
CONHULL3	1"	25mm
