

Hot Line Clamps

Hot Line Clamps

Hot line clamps are used for line tap distribution connections.

The body is made from High strength Bronze alloys such as C955/C956 which offer high strength, corrosion resistance, and conductor compatibility.

Eyebolts are made from forged stainless steel. Eyelets and keepers are made from Aluminum bronze.

The Hotline clamp is available in Tin Plated as well as Natural Finish.

Part no	Connection Type Run	Connection Type Tap	Run Dia.	Run	Tap Dia.	Tap
